ODP 461-77
11 March 1977

MEMORANDUM FOR: Deputy Director for Administration

FROM : Clifford D. May, Jr.
Director of Data Processing

SUBJECT : ODP Report for Week Ending 11 March 1977

VM Passwords

New passwords for users of the ODP interactive system (VM) were sent to ADP Control Officers for distribution to users. These new passwords go into effect on 20 March 1977.

Reevaluation of NPIC Computer System

ODP has been asked to participate in a reevaluation of the NPIC computer system. NPIC plans a total review of computer capabilities vs. requirements. ODP has been asked to provide a Systems Engineer on a part time basis.

PRS Supporting Program Budget

The budget officers are continuing to input the Budget data base with no significant problems. Initial reports for the Program Budget are due 14 March.

SAFE

We are in the process of developing a Request for Proposals with the objective of selecting two contractors to perform a competitive system design for the entire SAFE system. The contractor with the best design will then be selected as the prime contractor for SAFE development. The design contracts are to be awarded before the end of FY-77.

Drafts of the ADISS/SAFE Coordination Management Plan were recalled for revision in accordance with the above change.

TADS

STATINTL

Some of the required office space is available and plans to relocate in Ames Building by 4 April.

STATINTL

███████████████████████████████████ a local firm, for consulting services to support their implementation effort in the Washington area.

RAPID

STATINTL

Although the contractor ████████████████ to date is emphatic that the Critical Design Review (a payment milestone) will take place in May as scheduled, the possibility of this occurring is becoming more questionable.

Training

A three day course, Basic VM (VM is ODP's Interactive system), was completed by 21 students.

A one day course on the VM page formatting (or word processing) language, SCRIPT, was completed by 15 students.

A four day course, Programming Logic, was completed by 22 students.

A five day course, SIM II Master Terminal Operations, was completed by 11 operators assigned to the SIM II and CAMS systems.

A five day contracted course introducing the PDP-11 operating system was presented to 15 ODP personnel, most of whom will be working on TADS.

Training Staff, ODP, hosted a one day series of lectures STATINTL given by CIA computer personnel to the OTR Survey of Intelligence Information Systems Course. There were 21 students in the class.
